# Advisory to Candidates

Railway Recruitment Boards (RRBs) are conducting Computer Based Tests for Level-1 recruitment against CEN No. 08/2024 since 27th November 2025. It has come to notice that some external miscreants have been misleading and deceiving candidates by providing dummy chits allegedly containing numerals or alphabets that correspond to answers of the expected question paper. Candidates using such chits have been detected and apprehended during the examination.

Candidates are hereby informed that such chits have absolutely no relevance to the actual question paper. This is because the **questions and their answer options are uniquely and randomly shuffled for every individual candidate**. Therefore, these so-called "answer chits" provide NO advantage whatsoever and are entirely fraudulent.

The RRBs' digital system for generating, storing, transmitting, and administering **question papers is highly secure and protected with 256-bit encryption**. All examinations are conducted in a highly secure, CCTV-monitored environment. Candidates found in possession of chits or indulging in any form of malpractice face lifetime debarment from Railway recruitment, in addition to legal action, including the lodging of an FIR in police station.

Candidates are strongly advised to refrain from engaging in any such fraudulent activities and not to fall prey to miscreants attempting to exploit or deceive them.
